

# WorldWide Concierge

The All-in-One Valet Management System

By: Kyle Johns, Chase Hunter

# Introduction

- WWC is a multi-purpose valet system
- Modern and efficient way of storing vehicle data
- Database adaptable to location
- Subscription base your locations

# Planning and Selection

- We wanted to simplify a luxury service
- Making valet a “digital” service
- There are other solutions that are digital
- All encompassing, digital, simple

# Systems Analysis

- Physical and easily lost
- How could we make this simpler
- Modern or old fashion?

# System Designs

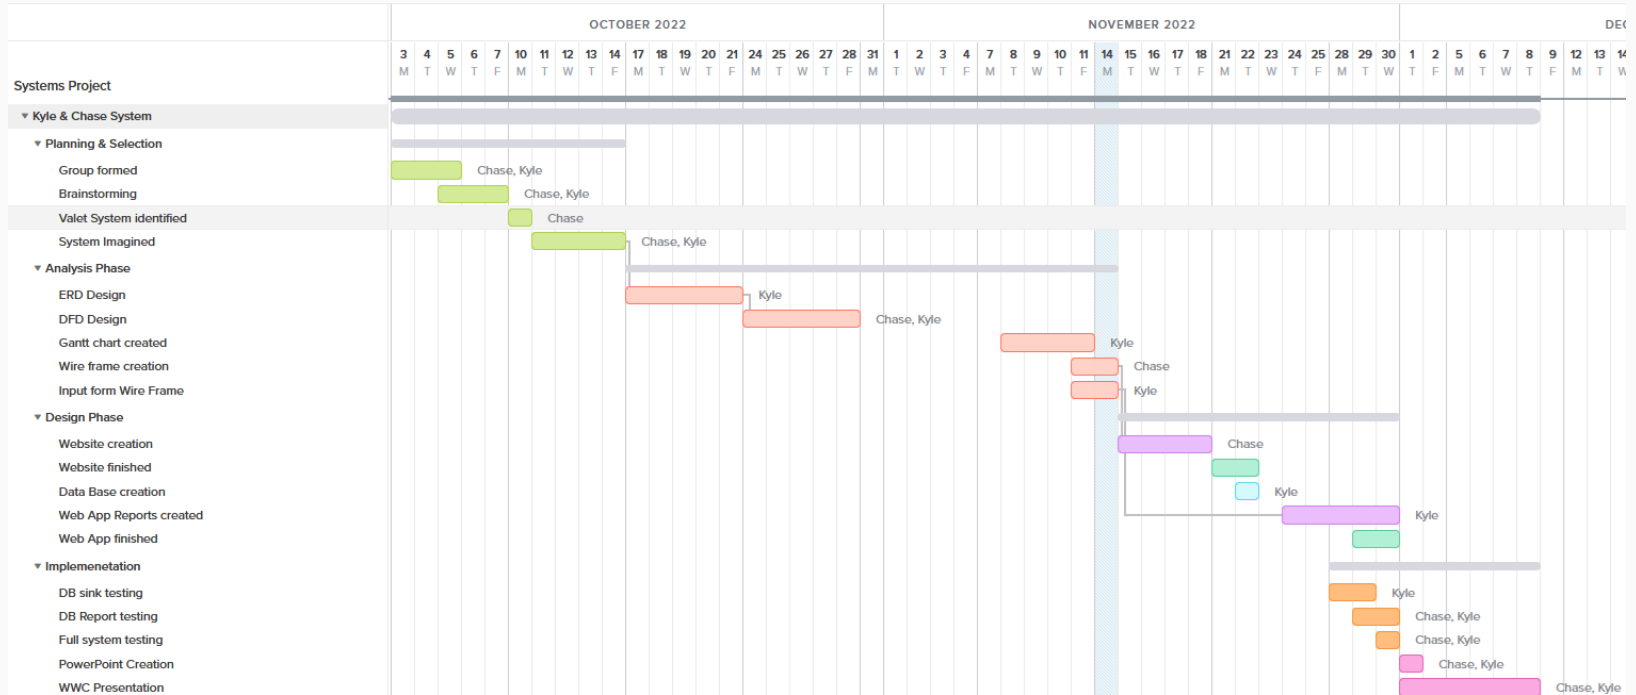

- Web forms to collect users input
- Website to enhance and deliver information of system
- Database to support
  - Various types of locations (lot or garage)
- Quick easy to read report

# Implementation and Operation

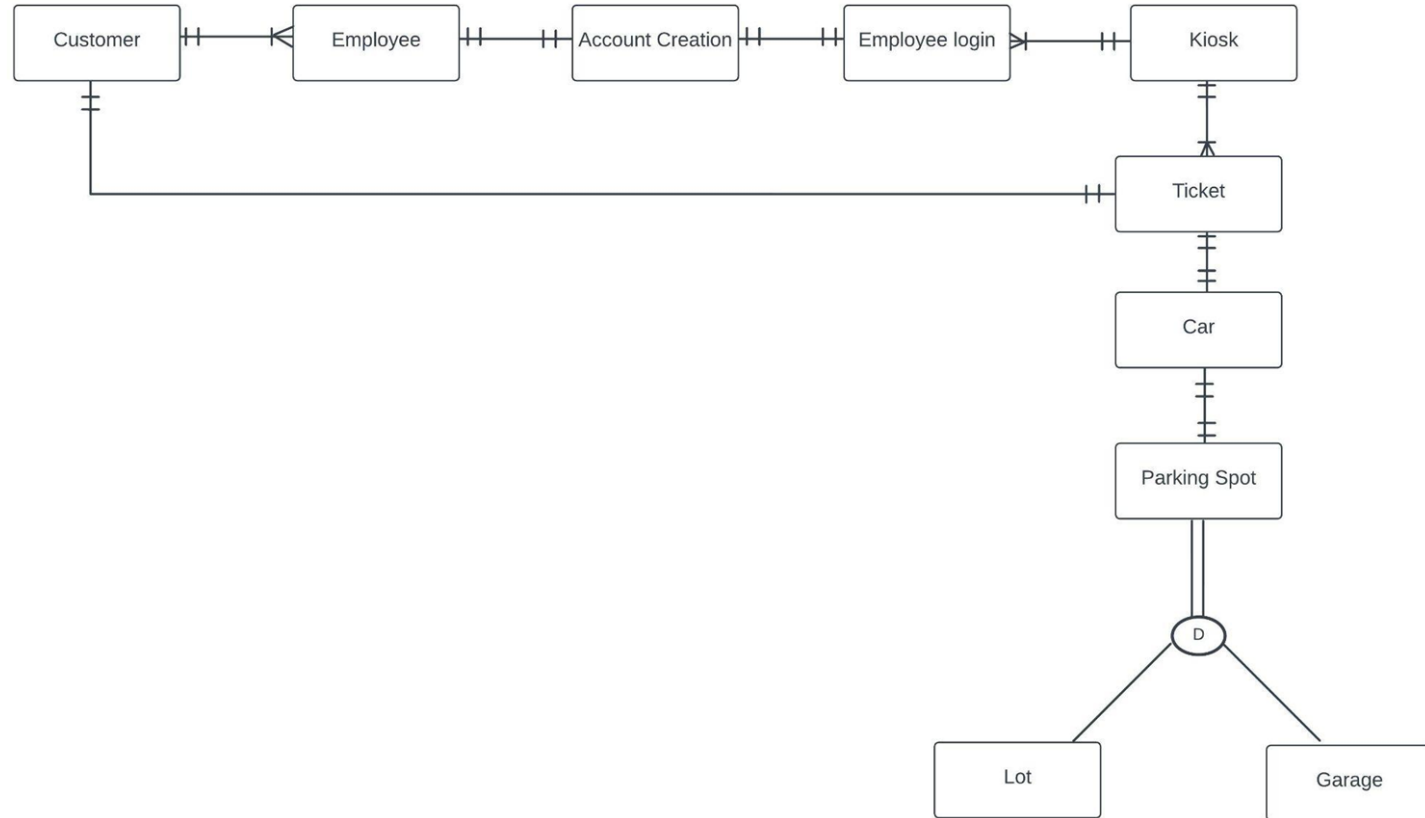

- The system can be scaled with garage or lot
- WWC GUI is the simple and quick form
- Report quick and easy to communicate

# Gantt Chart

Timeline of events from the first day of planning for the project, all the way to presentation day.
